REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the overall claimed combination of an absorbent article comprising an odor control system including a non-crosslinked reaction product of cellulose fibers and a partially neutralized carboxylic acid control agent reacted in the presence of heat to cause dehydration wherein the partially neutralized carboxylic acid control agent is selected from the group consisting of a partially neutralized HMCA, a partially neutralized PCA and combinations thereof has neither been anticipated nor rendered obvious by the prior art of record.

The arguments presented by the applicant in the Interview of August 23, 2004 and the Remarks filed July 19, 2004 have been found persuasive. Independent claim 24 requires a non-crosslinked reaction product and a dehydration reaction. The prior art of record uses crosslinked materials that are structurally different from a non-crosslinked product and would ultimately yield different results.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michele Kidwell whose telephone number is 703-305-2941. The examiner can normally be reached on Monday - Friday, 7:30am - 4:00pm.
